STAND OUT. WIN BIG.

ELITE SIGNS
VEHICLE WRAP
BROCHURE

TURNING EVERYDAY DRIVES INTO 24/7 BRAND EXPOSURE.

A great wrap doesn't happen by chance. It takes craft. Every curve, contour, and corner has to look right, feel right, and hold up over time. That's why at Elite, we treat every wrap like a bespoke build, not a print run. We take the time to understand your vision and design something that fits your brand and your vehicle perfectly.

Our installers handle every detail by hand, ensuring every panel aligns and every edge is locked in tight. The result is a moving piece of branding that turns heads for the right reasons. It protects your paintwork, promotes your business, and keeps your name looking sharp mile after mile.

Whether you want bold branding, subtle styling, or something that looks fast standing still, we'll make it happen. From single vans to full fleets, every wrap is made to last and built to impress.

VINYL CUT GRAPHICS

CLEAN. SIMPLE. EFFECTIVE.

When you're building your brand, you don't always need the full wrap treatment. Sometimes a sharp, well-placed logo and clean lettering do the job perfectly. That's where vinyl cut graphics come in.

They're ideal for start-ups or small fleets that want a professional, durable finish without breaking the bank.

We use premium-grade cast vinyl from trusted brands like Avery Dennison, Metamark, and Oracal, precision-cut for crisp lines and consistent colour. Every piece is applied by trained specialists who ensure it looks right the first time and lasts.

Vinyl graphics are easy to maintain and even easier to update when your details change, making them a smart choice for growing businesses.

Why choose vinyl cut graphics?

- ✓ Cost-effective and professional.
- ✓ Clean, high-impact finish that lasts.
- ✓ Precision-cut for sharp edges and perfect alignment.
- ✓ Durable materials for long-term use.
- ✓ Simple to refresh as your business evolves.

It's the easiest way to give your vehicle a professional edge without going all-in on a full wrap. Smart, simple, and it just works.

PRINTED PANEL GRAPHICS MAKE YOUR MESSAGE IMPOSSIBLE TO IGNORE.

Flat branding can only take you so far. Printed panel graphics turn your vehicle into a moving billboard, packed with colour, texture, and depth that grabs attention and keeps it. We print with high-resolution eco-solvent inks for sharp detail and consistent colour, then seal everything with a tough laminate that protects against sunlight, scrapes, and everyday wear. The result? A finish that looks fresh, mile after mile.

Why Choose Panel Graphics?

- ✓ **Maximum Impact:** Full-colour print delivers a powerful visual statement without needing a full wrap.
- ✓ **Built to Last:** A laminated finish ensures long-term protection and colour stability.
- ✓ **Flexible Coverage:** Perfect for sides, rear doors, or tailgates.
- ✓ **Easy Updates:** Simple to change out when you refresh your offers or need new branding.
- ✓ **Value and Visibility:** They strike the best balance between coverage, visual appeal, and your budget.

This option is the ideal middle ground: bold enough to get noticed, and practical enough for the day-to-day demands of your business vehicle.

PARTIAL WRAPS ***BIG IMPACT. SMART SPEND.***

You don't always need a full wrap to make a full impression. Partial wraps deliver the bold, professional look of a complete design without the expense of full coverage.

We achieve this by combining strategically placed printed graphics with solid-colour films. This approach extends your brand across key areas such as doors, bonnets, and rear panels, creating the illusion of complete coverage. The final result is always sleek, seamless, and completely intentional.

Why choose Partial Wraps?

- ✓ **Targeted Impact:** Focus the design on high-visibility areas where it matters most.
- ✓ **Seamless Finish:** We ensure a flawless blend between the printed graphics and the existing vehicle paint or solid film.
- ✓ **Paint Protection:** The film protects the factory paintwork beneath the wrap.
- ✓ **Expert Fitting:** Every partial wrap is installed by our Avery Accredited technicians for a flawless, long-lasting finish.
- ✓ **Cost-Effective Fleet Consistency:** An ideal solution for keeping multiple vehicles branded consistently while managing your budget.

This is the perfect choice for brands that need a premium, unified look across their fleet while maintaining tight control over expenditure.

FULL VEHICLE WRAPS GO BIG OR GET LEFT BEHIND.

This is where brands make their move. A full wrap isn't decoration; it's domination. It turns your vehicle into a bold statement that tells the world exactly who you are and what you stand for.

We use Avery Dennison Supreme Wrapping Films for that slick, paint-like finish that stops people in their tracks. Every panel is measured, cut, and fitted with precision inside our climate-controlled bay to keep the result flawless from every angle.

And while it looks incredible, it's practical too. The wrap protects your paint, keeps the bodywork fresh, and can be removed cleanly when it's time for a new look.

Why choose Full Vehicle Wraps?

- ✓ Transforms your vehicle with a premium, paint-like finish.
- ✓ Built to perform and made to last.
- ✓ Protects your factory paint and holds your resale value.
- ✓ Installed in a clean, climate-controlled space by trained specialists.
- ✓ Fully removable with zero damage.
- ✓ Backed by full manufacturer warranty.

If your business is built to lead, this is how you show it.

FLEET BRANDING & MODULAR KITS **STAY ON THE ROAD. STAY ON BRAND.**

When your vehicles aren't moving, they're not earning. We get it. That's why our modular wrap kits are built to save time, reduce cost, and make life easier for fleet managers who've got enough on their plate.

Our WrapIX and GraphiKit systems store your designs as modular templates, ready to cut and fit whenever you need them. No waiting on re-measures, no redesigns, no hold-ups. Each kit is built for precision and consistency, from vans to pickups, so every wrap looks sharp and professional wherever it's fitted.

Less downtime. Less hassle. More brand impact.

Why choose fleet branding and modular kits?

- ✓ Modular WrapIX or GraphiKit templates for fast, repeatable fits.
- ✓ Consistent branding across every vehicle, model, and size.
- ✓ Quick turnaround keeps your team working, not waiting.
- ✓ No re-measuring or redesigns needed — just an accurate fit every time.
- ✓ Quality-controlled, professionally installed, and built to last.

Smart systems. Faster fits. Fleet branding made easy.

SPECIALIST & REFLECTIVE MARKINGS

SAFETY THAT STANDS OUT.

When you're working roadside or running heavy vehicles, visibility is not optional. Our specialist reflective markings ensure your fleet meets all current safety standards while maintaining a professional appearance.

From Chapter 8 chevrons to full ECE104 kits, every detail is measured, cut, and fitted with absolute precision.

Why Choose Specialist and Reflective Markings?

- ✓ **Chapter 8 Compliance:** We fit chevrons that meet full Chapter 8 requirements for maximum roadside safety.
- ✓ **HGV Visibility:** Installation of ECE104 reflective tapes ensures maximum visibility for your heavy goods vehicles.
- ✓ **Regulation Standards:** All films are installed in accordance with exact regulation spacing and reflectivity standards.
- ✓ **Premium Materials:** We use high-quality films for a longer service life and brighter light return.
- ✓ **Professional Fleet:** This keeps your vehicles safe, compliant, and consistently professional-looking.

These markings are built to protect your people, your fleet, and your company's reputation.

COLOUR CHANGE VEHICLE WRAPS **TRANSFORM. PROTECT. PERSONALISE.**

Sometimes, a fresh look is all it takes to fall in love with your car again. Colour change wraps give you the freedom to switch things up without the commitment or cost of a respray.

We use premium films and expert installation techniques to deliver a flawless, paint-like finish designed to last. From subtle satin shades to bold chrome or dynamic colour-flows, every wrap is finished in our climate-controlled bay for consistent, high-quality results. Ready to enhance, protect, or refresh your vehicle? We ensure your car looks its best and stays that way, whatever your goal.

Why choose a colour change wrap?

- ✓ Achieve a paint-like finish without the permanence or price of a respray.
- ✓ Choose from gloss, matte, satin, metallic, carbon, chrome, or colour-flow effects.
- ✓ Protects against UV, chips, and weather damage.
- ✓ Fully reversible, restoring your car to its original condition when removed
- ✓ Professionally installed by Avery Dennison Specialists for perfect edges and durability.
- ✓ Precision-applied in our indoor, dust-free fitting bay.
- ✓ Easy to clean and maintain — just wash, wax, and admire.

Perfect for drivers who want to express themselves, protect their vehicle, or completely change its look without ever touching a spray gun.

QUALITY & ACCREDITATION **BUILT ON STANDARDS THAT LAST.**

Not every wrap is created equal, and not every installer earns certification from one of the world's top film manufacturers. Our Avery Dennison Specialist Installer status proves our work meets the highest standards for quality and consistency.

Every member of our installation team has completed rigorous, hands-on training in advanced wrapping and surface preparation. This attention to detail means your wrap looks great from day one and keeps performing for a long time.

Because we're certified, every wrap we fit comes with the full Avery Dennison warranty for performance, adhesion, and durability. Only a select few companies in the UK can offer that, and we're proud to be one of them.

Why it matters:

- ✓ Certified expertise tested to professional standards
- ✓ Manufacturer-backed warranty for long-term peace of mind
- ✓ Flawless surface prep, alignment, and finish every time
- ✓ Work completed in a purpose-built, climate-controlled fitting bay
- ✓ Trusted reputation built over years of experience

When you choose Elite, you're not just choosing a wrap. You're choosing craftsmanship, precision, and proven performance every time.

VEHICLE WRAPS BY THE PROS **STAND OUT. STAY SHARP. WIN MORE.**

Every business wants to look professional. But looking the part isn't just about pride; it's about performance. A smart, well-fitted vehicle wrap turns every journey into a chance to get noticed, win new customers, and prove you mean business.

At Elite, we don't just wrap vehicles. We help you build a brand that stands out on the road and sticks in people's minds. From one van to a full fleet, our team brings the same care, precision, and pride to every single job.

Why Choose Elite?

- ✓ **Integrated Service:** In-house design and production, meaning you work with one team from concept to final completion.
- ✓ **Perfect Environment:** Purpose-built, climate-controlled fitting bays ensure flawless results year-round.
- ✓ **Quality Materials:** We use premium materials for every budget, sourced only from trusted manufacturers.
- ✓ **Certified Expertise:** Our accredited installers are trained to the highest industry standards.
- ✓ **Proven Trust:** We are relied upon by local trades, national fleets, and every business size in between.

When you work with Elite, you're choosing a partner who knows exactly how to make your brand move.
